Hand-drawn schematic diagram of a mechanical assembly, likely a valve or actuator, with various components labeled with numbers. The diagram shows a central vertical shaft with a handle at the top and a valve stem at the bottom. The handle is connected to a lever arm (10) which is pivoted on a support (12). The lever arm has a curved end (14) that interacts with a cam or follower (16). The valve stem is connected to a valve body (20) which has a cross-hatched section (22). The valve body is mounted on a base (24). The entire assembly is shown in a cross-sectional view.
